

# MUSEUM

VISITORS & NEW MEMBERS WELCOME!

IS YOUR SOCIAL CLUB or special interest group planning a day trip to the west of Melbourne by car? Looking for somewhere interesting and a little different to stop along the way? Check out the Australian Gliding Museum near Bacchus Marsh.

The Museum will be of special interest to anyone with an interest in restoration, preservation and/or display of Australia's gliding history.

The Museum already has over thirty gliders from Australia and around the world in various states of repair from flying condition to "major repair needed!" Work is continuing as more exhibits are restored to display condition, or to flying status.

You are welcome to come along to our facilities, to see the collection and the restorations in progress. By arrangement we provide a host to give an insight into the significance of the various exhibits, show historic videos and provide some refreshments (e.g. morning or afternoon teas.) To visit you need to make contact and make a time.
